It would seem that the effort was an unfortunate one, for it produced similar publications on the part of Mr. Roosevelt's friends, and the result is disastrous to Judge Parker's showing.

It was regarded by the political leaders here as rather strange that the supporters o' Judge Parker should bring out decisions by the judge as evidence of his friendship toward labor. It is supposed that the decisions of judges are based upon the law in each case and are not matters of sentiment or the personal views of judges. Yet in the statement regarding Judge Parker opinions corrupt; that both parties in New York of his were quoted showing that he had, on a number of occasions, decided points of law favorable to the interests of labor. This is followed by showings made on behalf of had condemned a speech of Mr. Grosvenor | Mr. Hearst to make it appear that he is political running of the year.

It requires more than twenty pages of the Congressional Record to show the many things said and to recount the many things done by President Roosevelt that were directly in the interests of the workingmen. This question was referred to the attorney general by the President, and it is on that question he has prepared an opinion. In its effect the exclusion law is more drastic than the treaty. While the treaty is in force the points of difference between the law and the treaty are decided in accordance with terms of the latter. > Bryan that in seeking to have the sealed letter incorporated in the will he is not attacking the will or assuming a position of hostility toward it, but is attempting to remove the ambiguity of the clause in the will mentioning the letter. Judge Cleaveland finds that "there is nothing to indicate that it was Mr. Bryan's duty to resign as executor and thus desert the trust conferred upon him by Mr. Bennett, and it cannot be the law that his duties as executor involve the waiver of his rights to have his claim as legatee passed upon by the court of last resort in this State. The precise question raised by this application has, so far as appears from the cases cited in the briefs of counsel, never been raised, and in the absence of clear authority requiring the removal of anexecutor under the circumstances of this case, it is the opinion of this court that

Mr. Bennett's choice should not be thus defeated and that the facts alleged do not constitute sufficient ground for Mr. Bryan's removal. The demurrer is sustained and the application dismissed." The claim of the residuary legatee that Mr. Bryan was acting contrary to the best interests of the estate was based on the fact that he appressed a wish that Mr. Bryan should have \$50,000. It was claimed by the residuary legatees that this appeal is inconsistent with his duties as executor of the will and that he is unnecessarily delaying the settlement of the estate.
